

B220 Series

WEIGH & COUNT SCALES

- forward and reverse counting
- fully trade approved
- head up display option
- backlit display option
- tare and preset tare facility
- battery or mains supply
- 7 PLU hot keys
- 28 keyboard entered PLU's

B220 Series

WEIGH & COUNT SCALES

Features & benefits

The B220 series of high-resolution counting scales offer high performance and ease of operation at a highly economical price.

The B220 requires the minimum of key presses for sampling piece weights, and provides superior weighing accuracy for smaller components. A reverse sampling feature is available, which enables a count to be taken when stocktaking from full containers of a known tare weight. A piece weight can also be entered from the keyboard.

The operator can set an item limit with an audible signal for counting repeat batch sizes. This function also operates in negative mode for counting out from full containers. A configurable, automatic tare feature compensates for variation in box tare weights.

The large character display can be backlit, for operation in dark areas

A minimum weight value can be set, to provide a more accurate sample size when counting very light components. Up to 35 piece weights and pre-set tares may be stored for the most popular component lines.

Options

An optional working cover ensures the long life of the unit and protects from everyday wear and tear.

The B220 features a rechargeable battery option, offering over two hundred hours of continuous operation when the backlit display is not in use. Alternatively, six dry cell size 'D' batteries can be installed in the lockable battery compartment, giving over 800 hours of continuous operation. When the backlight is in use, an automatic switch off function helps to extend the battery life.

Scoops.

Head-up display.

Specifications

Capacities
6 kg, 15 kg, 30 kg

Readability
0.2 g, 0.5 g, 1 g

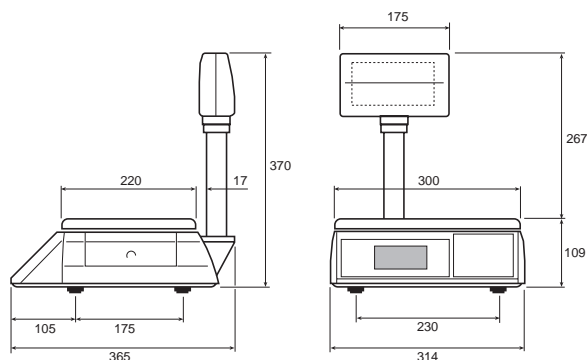

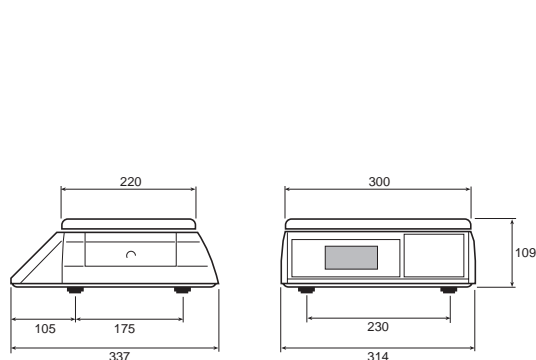

Readability (Approved Version)
1 g, 2 g, 5 g

Internal Resolution
Non-approved 7,680,000 divisions
Approved 1,530,000 divisions

Displayed Count
9,999,999

Power
12 V AC adaptor or, rechargeable battery option or, dry cell batteries

The B220 has full EC approval number T5532.
